INSTALLATION INSTRUCTIONS

Step 1. Follow the procedure "Turning Off Gas To Unit", located on the Lighting Instructions pullout labels in the control compartment of the unit and in the Installation Instructions provided with the appliance.

Step 2. Refer to the appliance Care & Operations/Installation Instructions and gain access to and remove the front glass enclosure panel.

Step 3. Carefully remove the log set from the firebox.

Step 4. Carefully slide the left side panel into firebox between the left side firebox wall and the front lintel (for Symmetry models, slide the side panels between the firebox sub-floor and the firebox wall.) (***Figure 2 - Step 1***).

Note: *For Symmetry Models - Insert the panels level to a point where you can insert the top of the panel up into the firebox and then drop it down to the firebox floor. On Symmetry 35" models, bend the tab down to secure the panel at the top.*

Step 5. Insert the rear/bottom panel into firebox and position against the rear wall of the firebox (***Figure 2 - Step 2***).

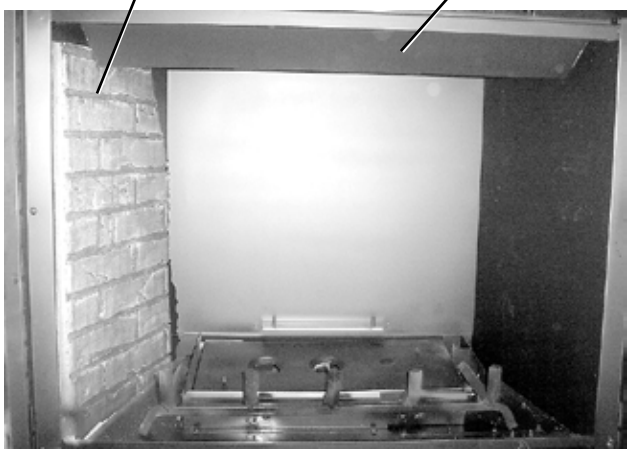

NOTE: DIAGRAMS & ILLUSTRATIONS ARE NOT TO SCALE.

Step 6. Place the rear/top panel on the top edge of the rear/bottom panel as shown (***Figure 2 - Step 3***).

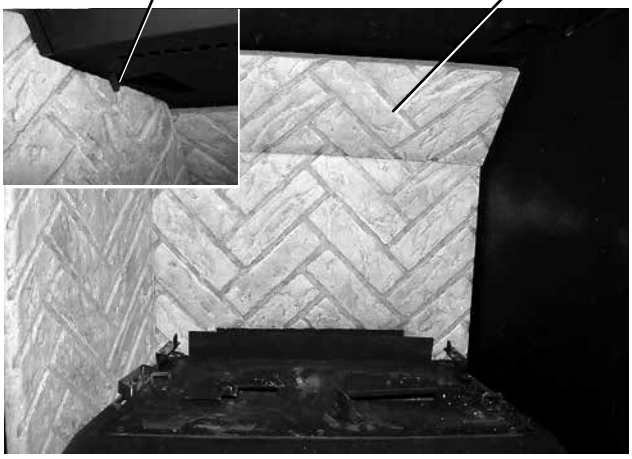

Step 7. Repeat Step 4 for the right side panel (***Figure 2 - Step 4***).

Step 8. Carefully replace the log set. Refer to the Care and Operations Instructions and the detailed Log Set Placement Supplement, included with the appliance.
