1 ea. Right Firebox Panel (B)
1 ea. Rear Firebox Panel (C)
3 ea. Insulation strips (porcelain panels only)
1 ea. Instruction Sheet

TOOLS / SUPPLIES NEEDED

Safety Glasses
Protective Work Gloves

GENERAL INFORMATION

All of these parts may scratch and bend, great care should be used in handling them.

If you encounter any problems, need clarification of these instructions or are not qualified to properly install this kit, contact you local distributor or dealer.

Read this instruction sheet in its entirety before beginning the installation.

ALL WARNINGS AND PRECAUTIONS IN THE INSTALLATION AND OPERATION MANUAL PROVIDED WITH THE APPLIANCE APPLY TO THESE INSTRUCTIONS.

TURN OFF THE APPLIANCE AND ALLOW IT TO COMPLETELY COOL BEFORE PROCEEDING.

Check the contents of the kits upon receipt and check for any damaged or missing parts. If there is hidden damage, notify your freight company or IHP dealer immediately.

NOTE: DIAGRAMS AND ILLUSTRATIONS ARE NOT TO SCALE

PRE-INSTALLATION (PORCELAIN PANELS ONLY)

Place the insulation pieces (provided) to the inside of the three (3) porcelain firebox panels as shown in ***Figure 2***.

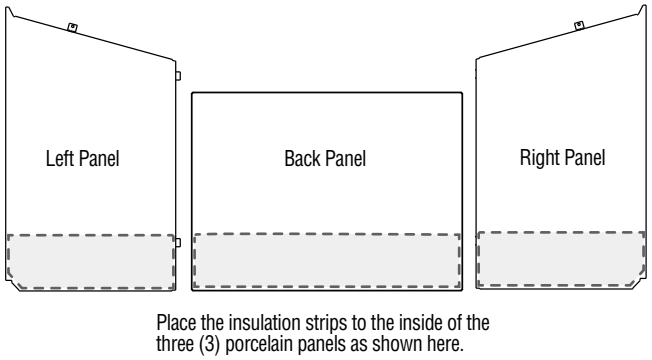

Figure 2 - Install Insulation Strips - Porcelain Panels Only

INSTALLATION INSTRUCTIONS

Step 1. Turn OFF gas to the fireplace. Refer to the fireplace Installation and Operation instructions, or the pullout lighting labels in the control compartment for more information.

Step 2. Remove facade that includes the screen barrier assembly.

Step 3. Remove glass door. Refer to the fireplace Installation and Operation instructions for more information.

Step 4. Remove the logs from the firebox.

Step 5. Remove the three (3) firebox liner panels from the packing materials. ***NOTE****: Do not force the panels. Excessive force may cause breakage. If the panels are correctly positioned, they will fit snugly in place.*

Step 6. Carefully position the rear panel, upper edge first, in the firebox against the rear wall *(see **Figure 3**)*.

IMPORTANT NOTE*: Panels are fragile, so hold the rear panel in place with your hand until stabilized with side panel installation in Step 7.*

Step 7. Carefully position the right side panel in the firebox *(see **Figure 4**)*.

Step 8. While holding the rear panel, carefully position the left side panel in the firebox *(see **Figure 5**)*.

Step 9. Optional: tabs with screw holes are provided in porcelain panels. Self tapping screws (1/2" or shorter) may be used to secure the side panels to the firebox sides.

Step 10. Replace logs, embers, glass and barrier removed earlier.
