FIREPLACES®

Atlas42 Vent-Free Firebox with Herringbone Refractory Panels and Southern Comfort Log Set

The **Atlas's** extra tall opening accentuates a variety of standard features to anyone familiar with real masonry fireplaces. The refractory panels are available in traditional stacked and herringbone patterns, with integrated ash lip. These fireboxes do not require heat deflection hoods and readily accept a large variety of vent-free logs.

INTERIOR OPTIONS (Required)

IMPORTANT NOTES:

As with any fireplace, this appliance is extremely hot during operation. Read and understand all operating instructions before using this appliance. For further information, consult your dealer.

Local conditions, such as elevation, wind, vent configuration and choice of fuel will affect overall appearance of the fire and heating performance. Performance can also vary with home design and insulation, climate, condition and type of fuel used, appliance location, burn rate, accessories chosen, chimney installation and how the appliance is operated.

Diagrams, illustrations and photographs are not to scale—consult installation instructions. Product designs, materials, dimensions, specifications, colors and prices are subject to change or discontinuance without notice.
