IMPORTANT NOTES:

As with any fireplace, this appliance is extremely hot during operation. Read and understand all operating instructions before using this appliance. For further information, consult your dealer.

Local conditions, such as elevation and choice of fuel will affect overall appearance of the fire and heating performance. Performance can also vary with home design and insulation, ceiling height, accessories chosen and appliance location.

Diagrams, illustrations and photographs are not to scale — consult installation instructions. Product designs, materials, dimensions, specifications, colors and prices are subject to change or discontinuance without notice.

FIREPLACES®

ORION LR firebox with Herringbone Refractory Panels

The tall opening and low to the floor design of the **Orion LR** series of vent-free fireboxes are welcome features to anyone familiar with traditional site-built masonry fireplaces. The fireplace's refractory brick panels are molded from actual hand-cut firebrick in a traditional stacked or herringbone pattern. Combine with a variety of vent-free gas logs for a beautiful full size fireplace with a traditional masonry appearance.
