(mm)	(1324)	(1203)	(1918)	(668)	(152)

Framing Should be constructions of 2 x 4 or larger lumber.

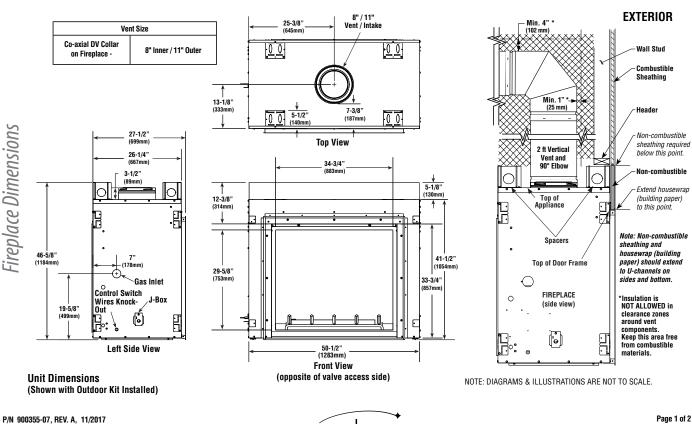

2 ft vertical vent and one 90° elbow. For other venting configurations, see Installation and **Operation Manual** 

Dimension **B** is from <u>fireplace base</u> to top fram-1 ing member.

2 Dimension C is from fireplace base to centerline of horizontal vent pipe. Minimum vent framing:

3 1/2" board for platform (shown in gray). Dimension E is a 6" clearance from fireplace base 4 to outdoor surface (e.g., deck, patio, lanai) that is required as a moisture barrier (not a combustible clearance) on outdoor side only.
